

TypeAway™ Keyboard

Palm™ • Tactile Keys

An ultra-slim, lightweight keyboard for your PDA. It starts out pocket-sized and unfolds into a full-size keyboard for fast, easy data entry.

An ultra-slim, lightweight folding handheld keyboard that fits in a pocket. Responsive and comfortable keys enable fast data entry, and shortcuts give you instant access to applications. Moreover, its innovative design features a built-in-cradle with no batteries or cable required.

- Slim design unfolds into full-size keyboard
- Half the weight of other handheld keyboards
- Built-in cradle
- No batteries or cable required
- Shortcuts for instant access to applications
- Fast, easy setup

Lightweight Portability and Fast Typing

- Ultra-slim, portable folding handheld keyboard
- 63 responsive, comfortable keys for fast data entry
- Shortcuts for instant access to applications
- At about 5-1/4 ounces (150 grams), half the weight of other handheld keyboards
- Folded dimensions: approx. 5-1/4in x 3-1/2in x 1/2in (134mm x 86mm x 12.4mm)
